

Junior web developer exercise

We want you to implement the design below as identical as possible.

The input field should only allow numbers bigger than 10.

Feel free to write the code anywhere you want, but this Codesandbox link: <https://codesandbox.io/s/interview-test-97bw6q> might help you start coding faster.

Design

The design shows a light gray rounded rectangle containing the following elements:

- The word "Form" in a large, blue, serif font at the top left.
- The word "Number" in a smaller, black, sans-serif font below "Form".
- A text input field with a light gray border and rounded corners, containing the placeholder text "Please enter a number" in a small, gray, sans-serif font.
- A blue button with rounded corners and a white border, containing the word "Submit" in a white, sans-serif font, located at the bottom right of the form.
